Subject index

accidents, and incidents classification of in the health-care system 199
accreditation
  process of in the United Kingdom and raising standards in pathology 75
  standards-based organizational development programme 83
ACHS Care Evaluation Program, health-care performance measurement systems 171
acute myocardial infarction, thrombolytic therapy and reduction of time delays 99
anaesthesia, outcomes of 29
analysis, of patient complaints in an observation unit 151
asthma, documentation of improved by computer-facilitated data entry 187
audit,
  clinical audit activities in surgery 47
  clinical effectiveness in England 3
  comparative in surgery 47
  King's Fund Organisational 83
  maternal mortality, obstetrics and gynaecology in England 21

blood, loss and central venous line disconnections 213
book review 159, 223, 287

cancer, suspected infection in children with 275
cardiac surgery, time of presentation of wound infection after 227
central venous line disconnections, associated blood loss 213
chemicals, safe and economical use at a small rural health service (abstract) 221
children, with cancer, suspected infection in 275
cholecystectomy, rates, impact of new technology in New South Wales 263
chronic obstructive airways disease, severe exacerbation of and health resource use in general practice and hospital 125
classification, of incidents and accidents in the health-care system 199
clinical
  audit
    in England 3
    of health care quality improvement 37
  care
    quality of and measurement 163
    standards, quality management and patient complaints 217
  effectiveness
    clinical audit in England 3
    for health care quality improvement 37
    in British psychiatry and in the Royal College of Psychiatrists 55
  indicator, time of presentation of wound infection after cardiac surgery 227
  practice guidelines, the philosophy, purposes, problems, practicality and implementation of 63
computer-assisted triage system, data entry for asthma documentation 187
corticosteroids, use for chronic obstructive airways disease, health resource use in general practive and in hospital 125
critical incident monitoring, in psychiatry 249

day surgery, process in a rural multipurpose health facility (Abstract) 285
death, perioperative in hospital 29
delays, time in emergency department 99
diabetes, complications of in the hospitalized population in Victoria 1993–95 177
discharge summaries, quality of communication between hospitals and general practitioners 241

documentation, of asthma by computer-facilitated data entry 187

editorial 97, 161, 225
emperical treatment, suspected infection in children with cancer 275
ethics, determining the function of a hospital clinical committee 117
evidence-based medicine
  health-care performance 171
  outcome measurement and the attitudes of mental health personnel 109
exacerbation, of chronic obstructive airways disease 125

foreword 1

general practitioners, quality of communication between hospitals and 241
gynaecology, an audit in maternal mortality 21

health
  care, quality improvement and clinical effectiveness 37
  outcomes, measurement of health-care performance 171
  resource use in general practice and hospital 125
  service, use of chemicals at a 221
health-care
  performance measurement, systems and the ACHS Care Evaluation Program 171
  system, classification for incidents and accidents 199
hospital, the function of clinical ethics committees and making ethics work 117
hospitalized cohort, complications of diabetes in hospital population in Victoria 1993–95 177
hospitals, quality of communication between general practitioners and 241

incontinent, cost-effectiveness of Kylie usage and laundering in comparison to the use of an alternative method of managing long-term incontinent patients in a small rural health facility (Abstract) 285
indicators, for the success of diabetes care 177
infection,
  suspected, in children with cancer 275
  wound, time of presentation after cardiac surgery 227

knee replacement total, short-term outcomes in an Australian population 135

laboratory services, uncovering the causes of poor-quality pathology in acute myocardial infarction 233
laparoscopy, impact of new technology on cholecystectomy rates in New South Wales 263
length of stay, impact of new technology on cholecystectomy rates in New South Wales 263

mental health, professionals and their attitudes towards rating outcome 109
methodology, implementation of quality improvement and the medical profession 143
mortality, maternal and quality in obstetrics and gynaecology in England 21
myocardial infarction, acute, uncovering the causes of poor-quality pathology laboratory services in 233

New South Wales, impact of new technology on cholecystectomy rates in 263

obstetrics, see gynaecology 21
organizational audit, King's Fund 83
osteoarthrtitis, total knee replacement short-term outcomes in an Australian population 135
outcome
  –process assessment, measurement of the quality of clinical care 163
  rating and the attitudes of mental health personnel 109
  research, American physicians and quality, the Project Solo/Physicians Information Exchange experience 195

short-term of primary total knee replacement in an Australian population 135
of anaesthesia and perioperative deaths 29
of surgery and perioperative deaths 29

pathology, raising standards in and the accreditation process in the United Kingdom 75
pathology, uncovering the causes of poor-quality laboratory services in acute myocardial infarction 233
patient
complaints
an analysis of in an observation unit 151
range and nature of in Southland Base Hospital 217
satisfaction with quality in surgery 89
perioperative deaths, the history and achievements of the National Confidential Enquiry into 29
psychiatry
clinical effectiveness of in Britain 55
incident monitoring in 249

quality
and its measurement 163
approaches to patient satisfaction in surgery 89
assessment, measurement of 163
assurance
incident monitoring in psychiatry 249
improvement
American physicians organised around 195
clinical effectiveness for health care 37
in time delays in the emergency department 99
methodology implementation of and the medical profession 143
in obstetrics and gynaecology in England 21
management, quality assurance in the Southland Base Hospital 217
of communication between hospitals and general practitioners 241
of life, primary total knee replacement 135
organizing American physicians around, the Project Solo/Physicians Information Exchange experience 195
patient complaints in an observation unit 151
uncovering the causes of poor-quality pathology laboratory services in acute myocardial infarction 233
questionnaires, to assess patient satisfaction 222

RANZCP, incident monitoring in psychiatry 249
research evidence, implementation of and clinical practice guidelines 63
Royal College of Psychiatrists, psychiatry and clinical effectiveness 55
Royal Australian and New Zealand College of Psychiatrists, incident monitoring in psychiatry 249
rural, day-surgery process in a rural multipurpose health facility (Abstract) 285

surgery,
clinical audit activities in 47
outcomes of 29
patient perception of quality in 89

thrombolytic therapy, reducing time delays in the emergency department 99
total quality management, approach to patient satisfaction at Balranald Health Service 222

valve system, one way and central venous line disconnections 213

wound, infection after cardiac surgery, time of presentation after 227
